

## TO ENACT NEW MARRIAGE LAW

Senator Stout Introduces the Much Talked of Woodruff Bill.

## SOLONS GET TO WORK

Assembly Committee Named—All Favor Reform Measures of Gov. La Follette.

## APPORTIONMENT IS A PUZZLER

Madison, Wis., Jan. 16.—An amendment to the marriage law which requires all applicants for a marriage license to undergo an examination at the hands of a local board of three physicians, to be appointed by the county judge was introduced in the senate today by Senator Stout. Persons suffering from consumption, any form of insanity, or certain loathsome diseases are prohibited from marrying.

A bill by Senator Mc Gillivray provides for a state inspector of deaf and dumb at a salary of one thousand a year.

The memorial of the Winnebago county board asking the passage of a law prohibiting football was presented in the senate and offered to the committee on education.

A bill providing for the taxation of bank stock and that debts shall not be an offset was introduced in the assembly by Rossman.

## CHANGES IN LICENSE LAW.

Legislature May Fix a Uniform Fee For the Saloons.

Madison, Wis., Jan. 16.—Country members who have returned to the capital for the legislative session report that there will be introduced in the legislature this week a bill, which, if adopted, will very radically change the saloon license law in this state.

The measure, as proposed, provides first for the fixing of the saloon license in all cities of over 50,000 inhabitants at \$800 a year, and provides that in cities having a population between 10,000 and 50,000 the license shall be \$500 a year, while in other places the license fee is fixed at \$200.

Some Other Features. Strong efforts are also to be made, it is learned, to secure the passage of this measure, and already considerable literature has been sent out in favor of the bill. The raising of the license fee is, however, not the only radical feature of the measure. By its terms the issuance of licenses for the sale of liquor in business establishments where drugs, dry goods, clothing, jewelry or hardware is kept is forbidden, and in this way the projectors of the measure expect to prevent the combination of the saloon and other businesses. No license either is to be issued for the carrying on of the saloon business by any person engaged in another business unless it be in some place entirely separate and distinct from the building in which the other business is engaged in.

Senator Whitehead has charge of the drawing of bills on the subject of the taxation of corporations, and it is his intention to have some of these measures ready for representation to the legislature this week. In fact before Friday there will be a great many important bills before both houses. Speaker Ray and other assembly leaders have been trying to impress on the assemblymen the necessity of having their bills ready soon and one of the propositions which is under discussion by the leaders in both houses is the passage of a resolution this week providing for

## PEPPER IS CONDUSIVE TO LONGEVITY

Experiments by Indians—User of Salt Dies First—Chief Reaches 112 Years.

Wichita, Kan., Jan. 15.—Temple Houston, son of Sam Houston, told today of the tests made by White Horse, an Ojibwa chief, and his squaw as to which was the better to prolong life, salt or pepper.

This test was started three years ago at the suggestion of the Indian medicine chief. White Horse agreed to take the pepper and his squaw the salt. The squaw died two years ago but the old chief is still alive.

Attribute Long Life to Pepper. Houston says concerning the experiment:

"I am no doctor and know nothing about medicine, but I know that pepper is much better to prolong life than salt. I have known the Cheyenne and Apache Indians for twenty five years and they are long lived people.

the shutting off of all new business on Feb. 1.

## Limit of New Business.

While it may be that it will be finally decided to place the limit on new business at a slightly later date it can be said that beyond a question of doubt new business will be shut off before Feb. 10 so that the requests upon the members for the preparation of their bills as soon as possible are within reason and will probably be acted upon by the members. As yet it is not known who will introduce the administration measures, but from present indications a large proportion of them will be presented by such men as Assemblymen Hall, Elia and Steiger as their sponsors. Some of the bills will, however, be introduced by Senator Miller who has long been a very close friend of Mr. La Follette and who is one of his strongest supporters on the floor of that house. E. Ray Stevens of Madison will also probably father some of the administration measures on the floor of the assembly.

## THE ASSEMBLY COMMITTEES.

Speaker Ray Announced His Appointments Last Night.

Madison, Wis., Jan. 16.—Speaker George H. Ray of the assembly last evening announced his standing committees.

The committee on privileges and elections is one that is considered favorable to the primary election law and when that measure is reported by it, the report will doubtless be in favor of the passage of the bill as the majority of the members are known to want the proposed law. The committee on assessments and collections of taxes also is one that is in sympathy with the ideas on the subject entertained by Gov. La Follette.

The chairman of the more important committees are: Judiciary, P. A. Orton; State affairs, K. E. Rasmussen; Cities, F. B. Keene, finance, banks and insurance, E. A. Williams; railroads, J. W. Thomas; education, James Johnston; manufactures, R. F. Thiessen; assessment and collection of taxes, A. R. Hall; corporation, L. M. Shumdrant; dairy and food, S. D. Slade; charitable and penal institutions, A. H. Dahl; fish and game, August Zinn; town and county organizations, W. J. Middleton; public lands, David Evans, Jr.; military affairs, A. David Evans; public health and sanitation, Joseph Willott; privileges and elections, E. H. Steiger; roads and bridges, F. J. Frost; agriculture, B. Holland; ways and means, Henry Overbeck, Jr.

C. L. Valentine is on the committee on cities and on fish and game. A. Eager is on the finance, banks and insurance and H. Cleophas on charitable and penal institutions and on ways and means.

## LEGISLATURE GETS TO WORK.

Revision of Oil Inspectors Salaries—Steps for Re-apportionment.

Madison, Wis., Jan. 16.—The legislature began its session in earnest last night. The principal measures introduced in the senate were bills offered by Senator Mills. One provides for a revision of the salaries of the state oil inspector and his deputies and also for important changes in the matter of inspection. The measure is drafted along the lines suggested by Gov. La Follette in his message.

Another bill provides for the repeal of the present taxation system whereby street railways pay a tax on the gross earnings of the road, and substitutes a system of taxation on the valuation of property just as other property is taxed.

In the senate the first steps were taken for the appointment of a joint committee of the two houses to act on the legislative re-apportionment of the state. The assembly will confer in the action today and the committee will then at once get to work.

The principal business of the assembly was the announcement of the standing committees by the speaker. The principal committees are in the hands of friends of the governor and so far as the primary election law

## REPORT SIGNS OF SAN JOSE SCALE; SOME INSECT PESTS IN WISCONSIN

Convention of Badger State Horticulturists and Poultry Men in Session Today at Oshkosh—The Varieties of Fruit Raised.

Oshkosh, Jan. 16.—Oshkosh is the theatre of two conventions this week. They are the fourth annual meeting of the Wisconsin state poultry association and the meeting of the Wisconsin state horticultural society.

The poultrymen are in session at the Century Roller rink and the officials say that there will be the largest number of birds on exhibition ever brought together in the state.

The breed of chickens that is most in evidence is the Wyandotte, with the Plymouth Rocks, second. Leghorns, Brahmas, Langshans and Minorcas are well represented. Pekin ducks and Toulouse geese are in evidence.

Exhibits Attract Attention. Some of the exhibits of the Oshkosh fanners are attracting particular attention. A. E. Chase has four Belgian hares, a pair of squirrels, waltzing mice, six Guinea pigs, a pair of racoons and a badger. From the state hospital are a tame deer, a cage

## MONEY IS A DRUG ON WALL STREET

Any Amount of It Can Be Had for Three Per Cent—Europe is Sending Over for It.

New York, Jan. 16.—Money is a drug on the market in Wall street. The National City Bank loaned \$3,000,000 at 3 per cent today. Conditions in the financial district are exactly opposite to those which exist in Lombard street, London, and indeed, in all the money centers of Europe. Discounts are going up abroad and money is in great demand, and commercial stagnation is threatened. Nearly every country in Europe is turning its eyes to the great stores of wealth which this country has been accumulating. It now has the largest stock of gold in the world.

Money is coming so fast into the sub-treasury from the interior cities as well as into the banks that the surplus fund here will soon become unwieldy. The largest transfer ever made by the sub-treasury to Washington in exchange for new bills was made today. Forty-six packages were shipped by express, the value of which in the aggregate was \$1,500,000.

The Bavarian loan floated by Zimmermann & Forsyth is probably a success, although the firm declines to give out any of the details of the subscription. The total loan will be \$24,000,000.

## COLLEGE STUDENTS WILL PARTICIPATE

Inauguration of McKinley on March 4th Will Be Greatest Event Ever Seen in Washington.

Washington, Jan. 16.—General Greene, who was appointed Grand Marshal for inauguration day, has come over from New York and opened headquarters in a convenient building in Washington. He has appointed a staff and will tomorrow commence preparations for a parade which is to surpass everything of the kind that has ever occurred in the country.

It is designed to have the finest military pageant ever seen in this country. One of the new and novel features will be a division of the procession composed of undergraduates of colleges, and Wallace Donald McLean, chairman of the intercollegiate committee has received encouraging advances from many institutions.

The colleges in the neighborhood of Washington—like Princeton, John Hopkins, the University of Virginia, Washington and Lee university, the University of North Carolina, University of Pennsylvania, Georgetown university, the Catholic university, the agricultural college of Maryland and the Indian school at Carlisle—have already signified an intention of coming in force, each with its own band, and large delegations are expected from other colleges in more distant parts of the country.

## Filipino Leaders Deported.

Manila, Jan. 16.—Thirty of the Filipino leaders ordered deported to Guam sailed today. The families and friends bade them a sad farewell at the wharf.

## ROCKEFELLER WEDDING.

Bride of E. Parmelee Prentice to Be Given a House by Her Father.

New York, Jan. 16.—Simplicity and absence of display will mark the wedding of Miss Alta Rockefeller to E. Parmelee Prentice, son of Mrs. Sartelle Prentice of Chicago, next Thursday at the home of the bride's father, 4 West Fifty-fourth street. The plans for a large church wedding were frustrated by the recent death of a young nephew of the bride. The daughter of John D. Rockefeller, the richest man in the United States, will have, however, an array of presents, seldom if ever surpassed by a bride of American birth. One of the gifts is said to be the house at 5 West Fifty-third street, to be presented to her by her father. It is a fine four-story brown-stone front dwelling, and its rear almost touches the home of Miss Rockefeller's parents. It is valued at \$115,000.

The French government was sustained, 310 to 110, for its action on the pope's alleged interference in the internal affairs of France.

## NO ASSAULT WAS MADE ON THE GIRL

Defense in the Bosschier Trial Says the Young Woman Was Badly Intoxicated.

Paterson, Jan. 16.—Interest in the murder trial is growing amazingly and when it was resumed this morning the crush in front of the court house was terrific. The court room was crowded to suffocation.

MacAllister, one of the defendants, was one of the first witnesses this morning. He said when he joined the party in the saloon Miss Bosschier was intoxicated. He denied placing knock-out drops in her drinks. He described the carriage which he said was taken for the purpose of reviving the girl, who had become ill from the effects of drinks. They laid her out on the road where she became unconscious and died. He averred that no assault was made on her.

The prisoners' attorney outlined the case, laying great stress on the fact that the girl had invited Death to go into a saloon with her. He denied that she had been given poison of any kind and said that no assault was committed.

## Defense in Bosschier Trial.

Paterson, N. J., Jan. 16.—McAllister, Campbell and Death, the three men on trial for the murder of Jennie Bosschier, showed when they were being brought into court that they had had a sleepless night following the terrible disclosures made by witnesses during the first day's proceedings in court. The principal evidence yet to be introduced by the state is that to be given by physicians and experts to prove the cause of death. The prosecution has a number of experts to testify, and the cross-examination of these witnesses will undoubtedly bring out the line of defense, which thus far has not been disclosed.

## DEATH PENALTY TO RESULT IN KANSAS

Governor W. E. Stanley is Very Indignant Over Lynching at Leavenworth—Condemns Sheriff.

Topeka, Kas., Jan. 16.—Governor W. E. Stanley is indignant at the result of the lynching at Leavenworth. He says it will result in the death penalty in Kansas for the crime of which Alexander was accused. Governor Stanley condemns Sheriff Everhardy of Leavenworth in unmeasured terms. "The sheriff of Leavenworth is either a despicable scoundrel or a despicable coward," said the governor. There was no reason in the world the negro should not have been protected to the last. The whole militia power of the state would be devoted to that effort, and the sheriff knew it all the time."

## FEARFUL STATE OF AFFAIRS IN CHINA

Chinese Drown Their Women to Save Them from Soldiers—Many Commit Suicide.

Milwaukee, Jan. 16.—In a letter to his mother, Mrs. S. S. Frackelton, Albert Frackelton, who is stationed on the United States army transport Athenian, gives some idea of the fearful conditions existing in China.

"The carnage has been awful," the letter is dated Sept. 10.—"The cities have been mowed down like grass. The soldiers have robbed even the graves and thrown the bodies all about. The Chinese were told that the soldiers would ravish the women and then kill them, and so they drowned their wives and daughters before the cities were captured. There were lots of bodies of women found lashed together found floating in the river and the soldiers told me that they saw fathers forcing their children to drown themselves in ponds as they entered the towns. The river was awful. The launch had to have a man at the bow to push away bodies as they steered up the river."

## ANOTHER NEGRO IS BURNED TO DEATH

Kansas Jail is Stormed and Alexander, Negro, Is Lynched.

## BODY SOAKED IN OIL

Victim of the Mob Accused of Assault Upon Two Young Girls.

## CLAIMS HE WAS INNOCENT

Leavenworth, Kas., Jan. 16.—The excitement over yesterday's lynching continues. Many wild rumors are current. Some say that a race war is imminent. Others say that the negroes are organized to commit assassinations on white women.

A vigilance committee of five hundred met, after yesterday's lynching and discussed the advisability of lynching Chas. Fletcher in jail for an unprintable crime. The authorities heard of the plan and took extra precautions to prevent another lynching. The committee will again discuss the Fletcher case.

Sheriff Sunday who collapsed last night is better this morning. He says that he has heard of no plan to hang him.

Leavenworth, Kas., Jan. 16.—Fred Alexander, the young negro arrested on Saturday night shortly after he attacked Miss Eva May Roth, was burned at the stake in the western part of the city at 5:20 yesterday afternoon in the presence of fully 5,000 people. He maintained his innocence of murdering Pearl Forbes to the last and kept his nerve to the end, going so far as to ask several friends to step up and bid him good-by after coal oil was thrown over him. Word was sent over from Governor Stanley during the morning offering the state militia to the sheriff, and also to the warden of the penitentiary to refuse to turn Alexander over unless the sheriff would give a written guarantee to protect him. The sheriff was warned by the mob that he must bring Alexander in.

## Sheriff Demands the Prisoner.

At noon the sheriff organized a posse of sixty deputies and went to Lansing. A special meeting of the penitentiary directors was called, and at one time it would be decided to give Alexander to the sheriff, and again to refuse and wait for a state militia escort. Sheriff Everhardy insisted on taking Alexander and in leaving the penitentiary just as soon as the state grounds were cleared. There was trouble in breaking through the mob. Half a dozen fights without firing any shots were had before the city was reached. Within two blocks of the crowd five young negroes, friends of Alexander, attempted an ill-advised rescue. They brandished pistols and tried to get one to Alexander, who was handcuffed. The city police, who met the sheriff's party at the edge of the city, disarmed these negroes without firing a shot. This caused great excitement, and a run was made for the county jail. Alexander was finally thrown and dragged into the jail building after a hot fight with the mob.

## Mob Beats Down Jail Doors.

The mob leaders, not to be baffled, broke into the jail by pounding in two doors. Men beat down the iron door of the cellroom and a yelling pack broke into the stockade, tore and beat down the sheet iron doors. The cry went up that Alexander had escaped, but he was discovered, crouching in the corner of the cell. Alexander fought like a tiger and was knocked

## THIRTEEN YEARS FOR C. J. ALVORD, JR.

The Man That Stole Nearly Half a Million Dollars from a New York Bank is Sent Up.

New York, Jan. 16.—Cornelius J. Alvord, Jr., who stole nearly half a million dollars from the First National bank was sentenced this morning to thirteen years in the penitentiary. J. Prevost Mason, the third teller in the Continental National bank was arrested at midnight charged with the embezzlement of twelve thousand dollars. He has been employed by the bank for twenty-eight years.

## PLEA MADE FOR A NEW CITY HALL; JANESVILLE NEEDS IT VERY BAD

Editor Gazette: That Janesville needs a new city hall is a fact clear to the common observer, and acknowledged by all who have a keen insight for the wants of this progressive and substantially prosperous city. Janesville city is adequately supplied with many prayerful churches whose spires point to the realms of better worlds, with clergy leading in talent and righteousness; school buildings costing at least a quarter of a million dollars, and presided over by professors and teachers who are masters; business blocks of numbers, architectural appearances and capacity for present needs.

The press is well and ably represented, not only with capital, but with talent and enterprise. The papers published here are far in advance of the support and appreciation given, and would be creditable to a city twice the size of Janesville. The ordinary reader of a paper, the casual or daily reader, has but little appreciation of the labor, expense or brain work required to get that paper before the public in a presentable shape. Reading embraces every phase of life from the morbid to the classic.

There is something in every paper of interest to every reader, consequently newspapers are much read, but the careful, profitable reader does not throw the paper aside because it, in some issues, has not startling, sensational items, but he proceeds to read the leader editorials which reflect the soul and character of the paper. No paper is a tenth part read when these able and interesting articles are ignored.

Janesville city has every element of stable progress, for safe investments in properties of every description. Complaint is frequently made as to lack of sociability of her people, of selfishness of capitalists, etc., etc. These qualities may be lacking in many cases but will not be debated here, save that too much sociability, and too much "kiting" with capitalists is prejudicial to a healthy condition of things.

For all of this the people here are generally happy and public spirited, and many who have gone from here to seek more congenial skies, have returned to their first love, to live and die here. The manufacturers of the city are making amazing progress in numbers and permanency, the leading firms having developed business with every civilized corner of the earth.

The Janesville Machine Company is a marvel of up-to-date go-ahead-iveness, of great prominence, a city of industry itself.

Of banks and bankers, four in number, with a surfeit of cash for legitimate uses, and most liberal to discount on all commercial paper offered. Up-to-date mills and enterprising millers, time tried merchants, busy and accommodating and first-class grocers, jewelers who lead and are prominently reliable and have trade from far and near; undertakers and furniture dealers not excelled in the state. Janesville has also become the tobacco

center of the state, numerous and extensive warehouses and - manufacturing of tobacco are being built adding to the many already established for years.

And now for a city and library building to be in keeping with all other advantages, but feebly named. Some say its cost would be an objection. "Nothing cost, nothing worth." It costs a good deal and many worldly sacrifices must be made, to become a good man, but the investment made gives speedy and substantial returns, transcending all objections. Others say further debts must be avoided. In answer to this we assert that debt is a wealth in direction of needed improvements. Money is abundant and seeking first-class investments at a very low rate of interest and can be carried as many years as desired. Let the city put on her good clothes to receive investment visitors.

They are coming—colleges, factories and railroads; enterprises of every conceivable nature are knocking at our doors for admission.

Let us be ready to receive them. The time is near, very near, when bonuses will be given, instead of asked, for locations here.

People who are spared to live another year will be astonished at the vast improvements and investments that will be made in this city particularly by the railroads.

Let the city hall be built in keeping with the certain continued growth of our city for fifty years to come, so that our sons and daughters who are to take our places, will take pride to occupy and emulate the good places and good deeds of those gone before.

The city fathers will feel in new quarters, that they have the generous support and recognition of their constituency, in their responsible and arduous duties, and will vie with each other in the betterment of their services.

The King property, corner of East Milwaukee and Bluff streets, is the site for a city hall. Let all touch elbows as to their best locality—dispel all sectional feelings—know no north, no south, no east, no west, but embrace the whole city as one in any public improvements. Let us all throw off all lethargic feelings for rise to improve the present opportunities. Our national holiday, the glorious fourth will be made most prominent here, more so than ever the present year.

Extensive preparations are already being made for a great celebration on that occasion. Where there is a will there is a way.

Now let the citizens awake on Tuesday, Oct. 1st, 1901, and view with laudable pride, a new substantial city hall and a "very building, and have in that day a jubilee which will be joined by the whole people and ten thousand visitors from county and state.

A city hall on the locality mentioned will stimulate needed and valuable improvements in that vicinity.

H. Janesville, Jan. 14, 1901.

### MAYOR-ELECT OF KINGSTON.

New Mayor of Kingston, Ontario, a Cousin of A. C. Kent.

A recent issue of the Daily British Whig, published at Kingston, Ontario contains a very flattering notice of the mayor-elect of that city, R. E. Kent who is a cousin of A. C. Kent of Janesville. Kingston's mayor-elect has been for years in the banking business in that city, is a member of the local field battery and for two years commanded the regiment in the absence of the commandant.

It is evident that he put up the gamest kind of a fight for the mayorality and that he won a brilliant political victory. His home paper endorses him to the extent of several columns and clearly is his firm adherent.

### CALLS IT BRUTAL COWARDICE

Congressman Driggs Scores West Point Code of Fighting.

West Point, N. Y., Jan. 16.—Cadet Joseph F. Barnes of the District of Columbia, who was one of Cadet Keller's seconds and who seems to have more knowledge of the code of corps in regard to fistie arguments than any other cadet at the West Point Academy, continued his testimony before the congressional investigating committee when the hearing was resumed today.

Mr. Driggs of Brooklyn, took the witness in hand and asked him minutely about the Keller-Booz fight. While listening to Barnes' description of the affair, the Brooklyn congressman interrupted the witness and asked him:

"Under your infamous and unmanly code of fighting is it not understood that an upper class man is selected especially for the purpose of administering a sound drubbing to the fourth-class man who is called out?"

"Yes, sir; it is understood when a fourth-class man is called out he is to be whipped."

"Oh! so that's the code," said Mr. Driggs, as he shook his finger at the witness, while he arose from his seat beside the chairman. Then, leaning toward the witness, he shouted: "Young man, this dishonorable practice you have described would not be tolerated in any athletic club in the world. The upper-class man who is a party to the calling out of a fourth-class man for the purpose of having him thrashed is a coward, and the fourth-class man who is beaten is nothing else but a hero. This morning I received four letters from Kansas, Massachusetts, New York and Brooklyn, in all of which the mode of fighting and hazing here is called brutal bullying. That is too mild, a description. I call it brutal cowardice."

Tour of Puerto Rico. The American Tourist Association announces two tours of the beautiful island of Puerto Rico under escort, through and around the island by rail, carriage, automobile and boat.

Special Pullman cars leave Chicago Thursday, January 17, and Thursday, February 14, at 9:30 a. m., connecting with the splendid new steamships Ponca and San Juan sailing from New York the second day following. Individual tickets sold for other sailing dates, alternate Saturdays.

Tickets include all expenses everywhere. All railway, steamer and sleeping-car fares, meals and berths on steamers, meals on dining car, hotel bills in New York and Puerto Rico, all transfers, carriage rides in the cities and through the island, guides and interpreters are included in the tickets. There are no extras.

Tours are under the direction of Rean Campbell, General Manager, A. T. A., 1423 Marquette Building, Chicago. Itineraries, maps and tickets can be had on application to the agents of the Chicago, Milwaukee & St. Paul Ry.

Red is a danger signal on the railroad, on a fellow's nose, and on a woman's face. Men and women use Rocky Mountain Tea and get genuine rosy cheeks; 35c. Smith's Pharmacy, Kodak agents, next to postoffice.

Hoke Smith Donates Libraries. Hoke Smith of Atlanta, Ga., newspaper man and former member of President Cleveland's cabinet, has given traveling libraries to fourteen counties in Georgia. The books are intended for school children and are to make the circuit of the schools.

The New Tran to the Tropics. The Chicago and Florida special (via Cincinnati) is a magnificent traveling palace. Exclusively Pullman equipment. Still Looking for a Site. New York, Jan. 16.—The committee on site, appointed by the Alumni association of the United States Naval Academy, has conferred with the Municipal Art commission as to the location of the naval arch. Neither the site on Riverside drive nor that on the battery was definitely decided upon. Col. William C. Church, of the Army and Navy Journal said: "We are going to have an arch, no matter what any one says." The arch, in all probability, will be exactly like the one temporarily erected in Madison square and Fifth avenue. The \$200,000 already collected will be turned over to the new committee.

### SPITTING CONTEST ON PUBLIC STREETS

LOAFERS ON CORNERS AT NIGHT SHOULD BE DISPERSED.

Bunches of Old and Young Men Much Given to Expectoration Have Become a Filthy Nuisance—Common Council Should Pass a Prohibitive Ordinance—A Dangerous Habit.

At various points throughout the city but most noticeably on corners where a full view may be had in four directions at once, is stationed every evening a bunch of men, usually young whose main object apparently is the obstruction of traffic and whose secondary motive is an expectoration contest. Both objects are pursued with a vigor which if applied to legitimate lines of business would undoubtedly win fame and fortune.

The case is not in the least new and if all the newspaper testimony against it were compiled it would fit out a small sized library. Nor is the expectoration habit confined to Janesville, although it is here assuming an epidemic phase.

Chicago which shows as much energy to combat a nuisance as the promoters to continue it comes to the front this morning with an ordinance making it a misdemeanor to spit in public. The text of the ordinance is as follows:

"Whereas, Spitting upon sidewalks, in public places, and in public conveyances is detrimental to health, by reason of the danger of spreading contagious diseases, and is also a public nuisance which should be abated, therefore

"Be it ordained by the city council of the city of Chicago:

"Section 1. No person shall spit upon any public sidewalk or upon the floor of any public conveyance, or upon the floors of any theatre, hall, assembly room or public building.

"Section 2. Any person violating the provisions of this ordinance shall upon conviction be fined in a sum not less than \$1 nor more than \$5.

"Section 3. This ordinance shall be in effect from and after its passage and approval by the mayor."

The prevalence of grip and pneumonia, which are spread through the habit of spitting, was given by Ald. Goldzier as a reason for the passage of the ordinance. He said:

"The latest discoveries in science and medicine have shown that disease germs are spread broadcast through this habit of expectoration, and in the present epidemic of such diseases precaution should be taken to prevent it. Similar ordinances are in force in New York, Paris and a number of the European cities, and the trial has been successful. We have never had an ordinance in the Chicago code though Commissioner Kerr at one time issued such an order. The health authorities wish to do so again, but they have not the authority."

It might be well if such an ordinance were incorporated into our city code, or if those who have a surplus of saliva would deposit it where it would be innocuous.

At Mary Kimball Mission. Rev. J. W. Hagerty, state evangelist of Wisconsin, spoke last evening at the Mary Kimball mission, and will speak again this [and tomorrow] evenings. Meetings have been held at the mission every evening since December 31. The congregation has been for some time in excess of the accommodations, and Miss Kimball is confronted by the problem of extending the chapel to the street. It is possible that the work will be undertaken in the spring.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels. ## WASHINGTON LETTER.

## THE HOUSE DISPOSING OF IMPORTANT LEGISLATION.

Status of River and Harbor and Shipping Bills—Efforts of Opponents to Defeat the Latter. But the Lobby Is Becoming Uneasy and Seemingly Defeat.

WASHINGTON, Jan. 16.—The house of representatives is keeping up its record for businesslike promptness in disposing of important legislation, and the number of bills accumulating in the senate that have passed the house has already become appalling. The house has disposed of the new apportionment by fixing a basis of representation that will result in a membership of 380 in the house of representatives in the Fifty-eighth congress to be elected in 1902. It is not expected that this bill will provoke any discussion in the senate when it reaches there, as it is purely a house affair.

The river and harbor improvement bill is also under way in the house, and a vote upon it will doubtless have been taken before this reaches the eyes of its readers. This bill, carrying appropriations for nearly \$70,000,000 as a subsidy to the nation's commerce, may be amended in the senate either by reductions or increases. The improvement of our rivers and harbors is becoming a colossal work, and few people realize that as much money has been spent in that work during the closing decade of the last century as was spent in all the years of our government's existence preceding that decade. It cannot be doubted, however, that the nation reaps benefits from the improvements far in excess of expenditures in the accommodation of rivers and harbors to larger craft that carry freight at reduced rates.

While the river and harbor improvements are a benefit to the shipping of all the world, not a dollar of taxes being collected from shipping to help bear the enormous expense of the improvements, such improvements nevertheless are in the most emphatic sense a direct government aid to commerce and industry. River and harbor improvements by the government escape the odious word "subsidy" as a characterization, and hence the aid is not offensive to many people who oppose government aid when the name applied to the latter takes the form of expression of "subsidy" or of "bounty." The only real difference in the government expenditures for river and harbor improvements and those for the building up of its own merchant shipping is that the first benefit is the shipping of all the world alike, while the benefits of the other are confined only to American craft.

While the shipping bill is not under consideration in either branch of congress at the present time it is nevertheless one of the most absorbing topics in political and in private conversations at the capital. It occupies an amount of space in the dispatches sent out from here to the newspapers of the country fully equal to that enjoyed by those measures that are actually under discussion and in process of passage. Not only are members finding that the country is deeply interested in the passage of the measure in question, but the direct and urgent requests they are receiving from their constituents in favor of its passage are having a most favorable effect. The enemies of the bill concede that if it can be brought to a vote in the senate its passage is assured. They are naturally, therefore, bending every energy and straining every nerve in order to prevent a vote in the senate.

Ever since the 3d of January the senate has been almost absorbed in its discussion of the army reorganization bill, and no man is able to predict the end. At the present writing a vote has not been arranged for, and, although there are those who look for the end during the week just closing, it would not be at all remarkable if it extended well into the next week if not beyond. Meanwhile as the filibusters expect, appropriations bills are accumulating, and all other business is suspended in the senate until provision is made for the army necessary to enable the president to carry out the law in our territorial possessions.

One of the most significant things of the times is the efforts that are being made by the antishipping bill lobby, representing foreign shipping interests here, to prove that there is not the least bit of need for any legislation. The lobby is getting frightened at the awakened newspaper demand for the immediate passage of the bill, and the fact has at last been widely published that new American ships means reduced ocean freight rates with direct benefits to our farmers and manufacturers. This truth, once it sinks deeply into the public mind, will result in an agitation so strong and so widespread that congress will find it utterly impossible to postpone further legislation.

Meanwhile the opposition to the shipping bill is filling its organs with statements that there is no shortage of ocean tonnage, that there are more ships offering than there are cargoes, that there has been a steady diminution of ocean freight rates—all of these statements being absolute and barefaced truths. There are not enough ships offering for the cargoes that offer, rates are abnormally high for ocean transportation, because such a vast amount of merchant tonnage is employed in carrying soldiers and army equipment to distant parts of the world—chiefly to South Africa.

Mix with French dressing and garnish with radishes cut in the form of little fuchsias and the whites of the hard boiled eggs cut into rings. To make the fuchsias score the skins of turnip radishes with a sharp knife in the shape of rose petals. Raise and turn them back and trim the flesh below to resemble the double white corolla. Place on ice until required.

## Doctors Have Big Scheme.

San Francisco, Cal., Jan. 16.—A Pacific Medical association is about to be organized. The plan is to have San Francisco the center of a western medical field, embracing Washington, Oregon, Idaho, Montana, Utah, Nevada, Arizona, California, Alaska, British Columbia, the Hawaiian islands, the Philippine archipelago and other islands of the Pacific, the western part of Mexico and of the Central American republics, and possibly the empire of Japan. A preliminary meeting of the most prominent physicians interested in this movement will be held in this city on Saturday evening.

## William P. Fishback Dies.

Indianapolis, Jan. 16.—William P. Fishback is dead at his home in this city. He had been ill for several weeks. He was one of the best known lawyers of the middle west, and had been prominent in the affairs of Indiana for forty years. He was born in Batavia, Ohio, in 1831. He graduated in law in 1852 and came to Indianapolis. He held several political positions, and in 1891 became the law partner of former President Benjamin Harrison.

## To Visit in United States.

Liverpool, Jan. 16.—The passenger list of the White Star line steamer Oceanic, which sails from this port via Queenstown for New York, contains the names of Mrs. Arthur Paget, Sir William Orr-Ewing, Sir Weetman Dickinson Pearson and Lady Pearson and Robert Lorraine, who has just returned from South Africa, where he served in the yeomanry, and who goes to New York to play the leading part in Frohman's "To Have and to Hold."

## Indiana Anti-Trust Legislation.

Indianapolis, Ind., Jan. 16.—Representative M. F. McCarty of Carroll county introduced in the legislature a bill which is supposed to be the effort of the minority in the way of obtaining anti-trust legislation. It defines as "criminal usurpation of the governing powers to attempt to control or regulate the production or sale of any commodity without a copyright from the state of Indiana." A \$10,000 fine and penitentiary sentence is provided for a violation.

## Proposed Tax on Bachelors.

Lansing, Mich., Jan. 16.—Representative McFarlane has introduced a bill levying an annual tax of \$5 on each bachelor over thirty years of age in the state. The introducer of the bill is 31 years old and unmarried, and says he has no immediate prospects of matrimony. The bill provides that the revenue shall be used in defraying the expenses of poor students in the state normal schools.

## President Gaining Strength.

Washington, D. C., Jan. 16.—The president is daily gaining strength and everything points to a speedy recovery. He is attending to more business than at any time since his illness, but he does not expect to go into his office for several days yet.

## BABY'S BUSINESS.

A healthy baby is comfortable; and that is enough for a baby. His business in life is to grow.

Aside from acute diseases, his food is the cause of most of his troubles. But Scott's emulsion of cod-liver oil delivers him from it.

He isn't sick; only a little hitch, somewhere, in his machine for turning food into growth.

It is a great thing to do, for a baby, to help him over a hitch with mere food—the emulsion is food that has the tact to get there.

The tact to get there is medicine.

We'll send you a little try, if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

## Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Dr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and when I washed the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

Corner Milwaukee and Main Streets

AN ORDINANCE relating to the installation and maintenance of metallic return circuits for conveying electricity as a motive power for railroads and street cars.

The Mayor and Common Council of the City of Janesville do ordain as follows: Sec. I. Every person, firm or corporation, operating or controlling a railroad or street railway within the city of Janesville, upon which cars are now, or hereafter shall be operated or propelled by electricity as the motive power for conveying passengers or freight, or conveying the electricity, shall install and maintain a metallic return circuit of such cross section and conductivity for conveying the electricity so used as a motive power that the maximum difference of potential will not at any time exceed one volt between any part of such metallic return circuit and any water pipes, gas pipes, telephone or telegraph cables or other metals not installed for the purpose of forming a part of such metallic return circuit; and that there will not be a variation in difference of potential exceeding one half volt between any two measurements at the same time at points along and upon said metallic return circuit within a distance of three hundred feet or less from each other. Such metallic return circuit shall be installed and maintained in accordance with the provisions of any ordinance of the city of Janesville, now or hereafter in force.

Sec. II. Such metallic return circuit shall be installed and in use on or before the first day of July 1901.

Sec. III. Any person, firm or corporation violating the terms of this ordinance, or who fails, neglects, or refuses to comply therewith shall upon conviction thereof be fined not less than twenty-five dollars nor more than fifty dollars; and such person, firm, or corporation shall be deemed guilty of a separate and distinct offense for every day during which such person, firm, or corporation violates, fails, neglects or refuses to comply with any or all of the requirements of this ordinance.

Sec. IV. This ordinance shall take effect and be in force from and after its passage and publication, which publication shall be for three successive days.

PRACTICAL PHILANTHROPY.

While the Sheldons, and the Parkers, and the Potters and the Parkhursts, and teachers of that class, are working to more or less purpose, to lift humanity up and elevate the standard of morality, it remains for the Rev. James M. Caldwell, A. M., Ph. D. D. D., of St. Louis, minister of the gospel, professor of sociology and lecturer on philosophy, to lay aside the garb of the pulpit, don a suit of blue jeans, and enter one of the large machine shops of the city, dinner pail in hand, to become a laborer with his hands, among laboring men. He is known by the boys in the shop as "Jim Caldwell," and is with them in sympathy as well as work. During the noon hour he is invited to mount a boiler, and speak to them, and already his influence is being wonderfully felt.

Dr. Caldwell says that he became a machinist because he became convinced, after leading a purely intellectual life for twenty years, that his development was one sided and that he was not bearing his share of the world's burden of work. He says: "Plain, honest work, simple living, and cheerful earnestness are the conditions of human progress."

It would not be practical or possible for all clergymen and teachers to imitate Mr. Caldwell in his methods, yet it is possible and intensely practical for everybody, not only to imitate the spirit, but to cultivate the feeling, that humanity is one great brotherhood, inspired by hopes and beset by disappointments, that come to the race as a common inheritance.

Man in the abstract is very much alike, but environments breed class distinctions, and all too frequently a wide gulf exists between the classes and the masses. The man in jeans, and the woman in gingham, both bearing the marks of common toil, live in a different world from the man of cloth and the woman of silk.

It does not follow that because a man works with brain and hand, or with brain and mind entirely, that he is not a worker. The hardest workers are found in the ranks of men and women who wear themselves out before middle life is reached, in efforts to satisfy the demands of active brain and mind. Neither does it follow that because of this fact there should be any marked distinction between this class of workers and the world's more humble toilers.

Some people are impressed with the notion that the way to help humanity is to throw out a line and say "catch hold and I'll pull you up to my level of thought and experience," and then in disappointment wonder why their humanitarian efforts are not appreciated. There is nothing very strange about it.

Only one way has ever been discovered to successfully help men, and that is to go down to where they live. Get down to the level of their thought and every-day experience and lift them by a leavening process as old as time itself, and yet as effective today as in the days of the Master at the opening of the first century. There's only a step between the Rev. Caldwell, the St. Louis divine, and Jim Caldwell, the St. Louis machinist, and yet it is an important step. It is the step between brotherhood and indifference, between sympathy and neglect, between a warm heart yearning to help people in practical ways, and a heart full of selfishness, or misdirected zeal.

There are a great many "Jim Caddwells" working successfully for the uplifting of humanity, and helping to lift.

The world will have arrived at its best estate, when the number is largely increased and when imaginary lines are obliterated. The human family is large and full of want. There is a universal demand for human sympathy, and the supply is all too incomplete, because we fail to appreciate a common brotherhood.

OPPORTUNITIES.

The opportunities of life in this country were never so numerous or favorable as today, and the young man who fails to recognize and improve them, does himself a grave injustice. There has never been a time in the history of the country, when bright, intelligent young men were sought after as they are today. Not at the bottom of the ladder or half way up, but at the very top, where the ranks are seldom crowded. These conditions exist because capital is so plenty, and so much of it is seeking investment. There is a world of money idle, because the right kind of ability to handle it is difficult to discover. In every railroad and large corporation, young men are being pushed to the front, and loaded with responsibility to a degree never

known before, and the supply is not equal to the demand.

What is true of the railroads and corporations is equally true of the commercial and industrial world. The demand for full developed young men is universal. It should be an incentive for every young man in this country to do his best. Many boys labor under the false impression that they are handicapped by their surroundings; that while opportunities abound, that in some way they are out of the channel. This is a mistaken notion. The cases are very rare where any young man with a purpose, possessing honesty, intelligence, good morals, and having the interests of his employer at heart, may not rise, in fact that kind of a young man can't be kept down. The eyes of the business world are on him, and they detect his ability just as readily as they detect his faults.

The president of the Southern Pacific railroad, Charles M. Hayes, with a salary of \$55,000 was a modest clerk twelve years ago. He came to the front, not through favoritism, but by way of his own ability, advancing step by step, and filling every position faithfully and well. He passed thousands of young men, and older men, in the race, because of the purpose that was in him. He was never outside the channel of opportunity, because he was so close to the top that he was easily discovered.

There isn't a country on the globe, and there has never been a time in this country, where the opportunities of life were so numerous or inviting as in this land at the present time. Every young man owes it to himself to thoroughly prepare for the work of life, and grasp the opportunities presented.

A SHORT SESSION.

The fact that the legislature has decided to make the session short and business like is a reform that will be heartily endorsed. The state is not suffering for more laws, and the routine business can be dispatched promptly. The work depends almost entirely on committees, and their ability to handle questions intelligently and impartially. The present session enjoys the benefit of experience as many of the old members of both houses are returned. They have discovered the importance of sacrificing personal preference, if occasion demands, for the general good, in other words that they are representatives of the people rather than expounders of personal opinion.

The Wisconsin legislature is reasonably free from hobbyists and theorists, as well as from obstructionists. It is composed of a class of men that enjoy the reputation of honesty at home, as well as common sense. In dealing with questions of public interest, they will be broad enough to act intelligently and without personal bias. The administration, with Governor La Follette at the head, is essentially a young administration, and will be noted for vigor and enthusiasm. It is well for the state to recognize young men. They are in active demand in every department of life, and are carrying today heavy burdens of responsibility, with credit to themselves, as well as the interests they represent. Many of them are found among our law makers, and the country is not slow to recognize their ability.

Governor La Follette is an ideal leader in the minds of a host of young men in the state. They admire his genial personality and his earnest exposition of measures. He is in touch with the educational element of the state, an inspiration to the class of young men who are coming to the front from the institutions of learning. The older and more conservative element finds much in him to admire, and while they may not rush to conclusions with the same enthusiasm as the young people, they will be with him on all questions that present a favorable outlook. His ideas of a business administration will be endorsed by everybody, and a short and busy session of the legislature will be of practical benefit to the state.

THE OTTUMWA'S ENTERTAINMENT

Rendered a Fine Program to an Appreciative Audience—The Special Features.

The Ottumwas appeared before a large and appreciative audience at the Congregational church last evening. Their efforts to entertain were so well received that they were obliged to extend the program to twice its original length.

Solos were rendered by B. B. Brock, second tenor; Mr. Peterson, baritone, and Mr. Qott, the base and all of them were excellent. The lullaby by the second tenor, who played his own accompaniment was one of the most enjoyable members. Nellie Gray was sung by request. Miss Smith, the elocutionist is well equipped in her line and did very creditable work. Her rendition of the telephone selection was very amusing. She is certainly a very handsome woman and was gowned to perfection.

JANESVILLE PEOPLE ARE GOING ABROAD

A number of Janesville and Rock county people are going abroad at this season of the year. Mr. C. E. Jenkins reports that a large number of tickets have been sold during the last month to different points in Europe and Asia. Among those who have recently purchased tickets are Mr. and Mrs. Jas. Bleasdale of this city who will sail from Philadelphia on Jan. 19 at 8 o'clock on the Penland of the American line.

George Bantoft will sail from Portland, Jan. 19 on the Allan line steamer Tunisian.

Mr. Wm. J. Miner of Belfast, Ireland, will leave for this country by the White Star line for a visit with his uncle, Thomas McDowell of the town of Harmony.

Meetings at First M. E. Church. Special evangelistic meeting are being held each evening at the First M. E. church. Rev. Mr. Bear of London, Wis., is assisting the pastor, Rev. W. W. Woodside. Marked interest in the cause of religion is being aroused, and these two weeks of prayer and special effort cannot fail of good results.

Wilcox-Clarke Wedding. Ella Wilcox of the town of Harmony, and James Clarke of Johnstown, were married to lay at the Court Street M. E. church parsonage, Rev. A. Hall officiating. Mr. and Mrs. Clarke go to Albion for a brief bridal trip, and on their return will reside on the groom's farm in Johnstown. Both the young people have many friends in this vicinity, and start out in their matrimonial career under the most favorable auspices.

COUNTY BOARD DECIDES THAT A SHAFT WILL BE ERECTED.

**Bills Against the County Was the Important Business Before the County Legislators—Plans for the Proposed New County Hospital—Memorial Hall or Memorial Shaft?**

The board by a vote late this afternoon decided that they had not the jurisdiction and could not change the resolution of last November that it should be in the form of a shaft.

At ten o'clock this morning the adjourned meeting of the county board was called to order by J. L. Bear, the chairman, and twenty-five members responded to the roll call.

The minutes of the previous meeting were read and approved.

District Attorney Jackson addressed the board in regard to some bills presented at the last meeting of the board and disallowed and asked the board to reconsider their action in the matter.

Sup. Livermore moved that bill No. 1,013 of Dr. Gibson be reconsidered. Carried. Sup. Bowles moved that the bill be allowed the motion and was carried by a vote of 27 to 4.

Sup. Bowles moved that the bill of Dr. Buckmaster be reconsidered and the motion was carried. He also moved that an order for Dr. Buckmaster's bill be drawn which was carried by a vote of 23 to 3.

Sup. Baker presented the following motion which was carried. That the allowance of the bills of Dr. Gibson and Buckmaster of \$15 in the case of John Arquette be in full statement of all claims for witness and traveling fees which may have been allowed by the court.

Sup. Powers moved that the rules be suspended for the consideration of the Wood county bill for the care of Leander Porter, which was carried. He then moved that the bill be disallowed. Sup. Smith moved the matter be postponed until Mr. Kenyon could be heard by the board on the subject. The motion was carried.

Sup. Livermore introduced a resolution which was carried that the purchasing committee have 2,500 copies of the proceedings of the board for the last year that had not previously been published, printed, the same to include the proceedings of this January meeting. The same to be in the style heretofore printed and that the committee ask for sealed bids and the contract to be awarded to the lowest bidder. The clerk is also instructed to have 100 copies bound in book form for the use of the board.

Sup. Whittier introduced the report of the committee appointed to check up the accounts of the different officers and agents.

The report was found to be correct and was adopted.

Architect Knip appeared before the board and presented plans for the hospital at he county farm for which an appropriation of \$4,000 was made at the last session of the board. On motion of Sup. Smith the plans as presented by Architect Knip were accepted.

Superintendent of Poor Kenyon appeared before the board in regard to the Wood county bill and stated that he had investigated the matter and found that it was not a proper charge against Rock county. That Porter was not a resident of Rock county but a resident of Spokane, Washington.

On motion of Sup. Smith the board adjourned until 1:30 o'clock.

**Session This Afternoon.**

The board reconvened at 1:30 o'clock. The first business taken up was the consideration of the claim of Wood county against Rock county for the keeping of Leander Porter. By an unanimous vote of the board the bill was disallowed.

Supervisor Grunhuud introduced a motion by which the name of Grace A. Tull of Janesville was changed to Grace A. Fuller.

A communication was received from the family of the late T. B. Bailey thanking the board for the beautiful floral pillow which was sent as a token of the feeling of the board for their father. On motion of Sup. Smith the communication was received and spread upon the minutes.

The report of the license committee was received and adopted.

No Memorial Hall.

It was practically decided this afternoon by the district attorney that a proceeding of the board at its last session cannot be reconsidered at a following session. Under this ruling the board does not have the right to reconsider the motion made at the November session, that the structure to be erected in memory of the soldiers of Rock county be in the form of a shaft.

**Memorial to T. B. Bailey.**

At three o'clock Supervisor Powers presented the following resolution on the death of T. B. Bailey, the member of the board from Beloit who has lately passed away. The resolutions which are as follows were adopted.

Whereas, A summons from the Unseen has removed from our midst one of the oldest members of this board and while we bow in humble submission to the will of the Most High, we do not the less mourn for our late associate who has been taken from us; Therefore, Be It Resolved: That is the death of Thomas B. Bailey, this board laments the loss of one whose

kindly acts won the respect of all. An active member of this body whose utmost endeavors were exerted for the welfare of the county. A citizen whose upright and noble life was a standard of emulation to his fellows.

"Resolved: That the heartfelt sympathy of this board be extended to his family in this, their sad affliction and that these resolutions be spread upon the journal and a copy transmitted to the family of our deceased brother.

A. C. POWERS,  
L. C. WHITTIER,  
L. W. KENDALL,  
Committee

Two hundred thousand dollars' worth of canceled county orders and orders for witness fees that were over two years old and had not been called for were burnt by order of the board.

## TWO NEW CASES OF THE SMALL POX

The Disease is Spreading at Milton—Two Patients Escape From Their Confinement There.

Two new cases of small pox are reported as having made their appearance in Milton. One of the cases is a scholar in the school which the Johanson boy attended after he had broken out but was still allowed to attend school.

A telephone message was received by the police of this city yesterday stating that two young men that had been quarantined on account of being exposed to the smallpox had escaped from the house and were supposed to have come to this city. The doctor who sent the message asked the police to look up the two men and if they were found in this city to detain them.

The police made a careful search around the town but were unable to find anything of the two men. They were at a loss to know what to do with them if they did find them and were not over anxious to expose themselves to the disease.

There is a determined effort being made by the people of Milton to suppress any facts concerning the disease and they claim that there is no small pox in the town. In the meantime, people from around the country who visit the village are ignorant of the fact that the disease prevails there and run chances of catching it themselves and spreading it throughout the county. If such a thing happens someone will certainly be blamed for keeping the matter quiet.

The state board of health is taking every precaution to prevent the disease extending beyond the town, but it will not be time to know just how many have been infected until after the time for the disease to show itself has elapsed.

## CAME TO JANESVILLE TO GET MARRIED

Illinois Couple Badly Disappointed When They Found They Would Have to Wait Five Days.

William Webster and Fanny Winters of Amboy, Lee county, Ill., a couple who left home and came to Janesville for the purpose of getting married and surprising their friends on their return home were sadly disappointed when they applied for a marriage license this morning. They were not aware that the Wisconsin law required them to wait five days after taking out the license before they could marry. They supposed that the law in this state was the same as in Illinois and allowed them to marry as soon as the license was issued.

After they had given their names and residences they were informed by the clerk that they would have to wait five days. They wanted to know if they could not get a special permit, but having no good reasons why one should be granted them they left for home, satisfied that they had made the trip to this city and spent their money for car fare without getting any return.

The couple later returned to the court house and secured their license. They concluded that as long as they had come so far it would be foolish to return without the license and they will return later and have the ceremony performed.

## DAILY RECORD OF DEATHS AND BURIALS

Funeral of Mrs. Zimmerman from the Home Tomorrow Afternoon—

The H. C. Inman Funeral.

Hester Ann Zimmerman was born in Cherry Valley, N. Y., Nov. 28, 1819. She was married to Wm. Zimmerman June 4, 1840 at Waterloob, N. Y. Mr. and Mrs. Zimmerman moved to Wisconsin in the year 1855. Mrs. Zimmerman was the mother of four daughters three of whom survive her, Mrs. M. V. Tackler of Truman, Minn.; Mrs. C. E. Howard of Milwaukee and Mrs. Royal Maltress of this city. Six years ago last July she had a partial stroke of paralysis from which she suffered until relief came by death.

She died at the home of her daughter, Mrs. R. J. Maltress in Edgerton on Monday evening, Jan. 14, 1901. The funeral services will be held at the home conducted by the Rev. W. W. Woodside of this city, her former pastor, tomorrow at 1:30 p. m.

Death of Mrs. Kate D. Sabin.

The Emmet index of Emmet, Canyon county, Idaho, contains in its issue of Jan. 4 the death notice of Kate D. Sabin, wife of Rev. S. P. Sabin, who passed away Dec. 29, 1900, at the home of her son, L. Lewis Sabin, of Emmet. Mrs. Sabin was sixty-six years of age and died after a prolonged and painful illness.

Mr. Sabin was pastor of the Footville Congregational church from 1870 to 1876 and together with his estimable wife recently deceased, will be remembered by the residents of Rock county.

Mrs. Eliza La Piere.

Mrs. Eliza La Piere died this morning at 11:30 o'clock at the home of her sister, Mrs. Thos. Parks, South High Street. She was sixty-four years of age and had been sick only five days with pneumonia.

Mrs. LaPiere had been a resident

of the city about sixteen years, having come here directly from England. She leaves two children to mourn her loss, Ernest G. LaPiere, formerly of this city and now a resident of Beloit, and a daughter, Mrs. H. J. Bradforth of London, England. Mrs. LaPiere had a wide circle of friends who will miss her. Notice of the funeral will be given later.

Harrison E. Inman.

Harrison C. Inman who died at 8:30 yesterday at his home in Plymouth, was one of the pioneers of the county, who left an indelible impress upon the township in which he lived. He was born in Lucerne county, Pa., in 1817. At the age of twenty he came west and settled in Plymouth, then practically a wilderness. By his thrift and energy the forest was transformed into the cultivated farm and the refinements of life followed.

He possessed the sturdy qualities of the early settler, the fearless heart and the strong arm. In all the varied relations of life he bore his part manfully and leaves an enviable record. He is survived by a wife and six children—Thomas and Ira Inman of Plymouth, four daughters, Mrs. E. H. Smythe and Mrs. H. G. Nelson of Newark; Miss Lazzette Inman of Plymouth, and Mrs. B. E. Smiley of Madison, Wis; also two brothers—Ed. Inman of this city and James Inman of Beloit and one sister, Mrs. W. Tripp of Rock township.

The funeral will be held at the house tomorrow at 11 a. m.

Patrick Finley Funeral.

The funeral of Patrick Finley was conducted at 10:30 this morning from St. Patrick's church, Rev. E. M. McGin officiating. The pall bearers consisted of his three sons, James, Michael and Patrick, his nephew, Richard Finley, and two sons-in-law, Delbert Gunn and Edward Donahue. The interment was at Mt. Olivet, where the remains were followed by a large concourse of sorrowing friends.

## ANOTHER NEGRO IS BURNED TO DEATH

Continued from page 1.

senseless with a hammer before he could be taken from the cell. Once outside he revived. Across Third street and up the hill into the courthouse yard the mob dragged him.

### Girl's Father Lights Fire.

Alexander was placed in a large wagon, with a dozen men around him, and he was paraded through the streets. He was bleeding from his fight with the mob, but was made to stand up, so all could see him. A great procession of buggies and wagons of all descriptions followed, and announcement was made from time to time: "We will burn him where he killed Pearl Forbes." This place was reached after a long detour down Broadway, through the fashionable residence part of the city. The spot chosen for the stake was the exact one on which Pearl Forbes' body was found on the morning of Nov. 7. It is on Lawrence avenue, near the Santa Fe track, and 100 yards north of Spruce street. Impatient, the captors shoved him down in the wagon, which was rapidly driven down the hill to the place of execution. Alexander walked up to the iron stake in a bold manner. Chains and wires were wrapped about him and with his hands still shackled he was made fast to the post.

Alexander called for his old mother, but she was not in the crowd. She had been, and was the only one noticed to shed a tear. A few negro friends removed her and took her to her home. After two cans of coal oil were thrown over Alexander and the pile of lumber, William Forbes asked: "Are you guilty of murdering my daughter?" "Mr. Forbes, if that's your name, you have the wrong man." "I am innocent, let me pray," were the words of Alexander as Mr. Forbes applied a match to the pile. "O, my God! O, my God!" was his only cry as the flames burned up all about him. Alexander tried to shield his face from the flames with his handcuffed hands. He was conscious only a moment. Long after he was dead lumber was piled on his body.

### TO TELEPHONE UNDER SEA.

Line Will Be Built Between Florida and Cuba.  
New York, Jan. 16.—An undersea telephone will soon be a reality. It will be built according to the invention of Dr. Michael Pupin and will be put down between Florida and Cuba for the United States government. Last July Dr. Pupin, having secured his patents here and abroad, offered his discovery to the American Telephone and Telegraph company. The company immediately bought an option on the inven-

tion extending to Jan. 1, 1901. Then, under Dr. Pupin's direction, the company equipped a line from Bedford station, on the Harlem railroad, which ran partly under water to New Bedford, Mass., thence to Albany and on to Pittsburg. There the wire ran overland. The coils were placed at intervals of about two miles, and were enclosed in glass insulators on the poles. The test was satisfactory. Speaking of his invention Prof. Pupin says: "The Bell company has tested the invention for six months and expresses itself as perfectly satisfied with it. The question of ocean telephony is solved from a scientific standpoint. There is no doubt that as soon as the financial part of the matter is settled it will be perfectly possible to telephone to London. In the present ocean cables the current has so many obstacles to battle with it becomes very weak before it reaches its destination 3,000 miles away. I discovered that the insertion of eight induction coils to every mile of line would overcome this resistance."

### LABOR'S AID IS NEEDED.

Bishop Potter Wants Tilters to Assist in Vice Crusade.

New York, Jan. 16.—Bishop Potter presided at a meeting of the Get Together club in Brooklyn and, in the course of his opening remarks, said: "I have great doubts as to the immediate suppression of vice. We may undoubtedly do a great deal in civic matters and make vice less indecent, less insolent. The mere suppression is not essential. Nothing has impressed me more during the last three months than the efforts of the metropolis to make itself a more decent city." The bishop then read an extract from a newspaper describing the settlement of the east side bakers' strike, and how men stood outside of the strikers' headquarters and shouted to the passers-by that the strike had been settled and that hereafter the people would get good, pure and clean bread on which union labels had been placed. "What we want," continued the bishop, "is good, pure tenement houses on which the union labels of morality have been placed."
